INTRODUCTORY

Imitation wood carvings illustrated in this catalog are manufactured in composition and wood fibre materials.

We wish to emphasize the point that we specialize in making exact reproductions of special wood carvings and special designs submitted to us and therefore can very advantageously serve Architects and Designers with their special requirements.

Composition carvings and wood fibre carvings are not materials that are in an experimental stage, have been manufactured by our company for more than sixty-five years and are very well known to the trade in general and are extensively used in connection with high grade furniture, cabinet work and architectural woodwork of any kind.

An exceedingly advantageous feature of our material is the adaptability of the carvings to curved and irregular surfaces.

The carvings can be finished up with the balance of the woodwork, as the same will take the stain and filler just like the woodwork, making a perfect match.

A trial order will convince you that although our product is inexpensive, it is absolutely reliable and durable, and guaranteed against any defects.

INSTRUCTIONS

Specify date of delivery desired so that carvings can be delivered fresh. Average orders can be shipped within two weeks. Carvings are not returnable.

INSTRUCTIONS FOR HANDLING AND APPLYING COMPOSITION ORNAMENTS

Composition Ornaments may be slightly steamed before mounting, this will soften ornaments sufficient so they lay flat. We mix glue with other materials that is activated and makes the back of the ornament sticky, when steamed.

Steaming can be done by placing a canvas stretcher coated thinly with glue over a steam tank or pot. The steam should be kept at a low, even temperature; not too much steam. Keep stretcher clean at all times by using scrubbing brush, dipping same into hot water at tank opening. Do not mount ornaments which have been steamed too freely without first blotting them on packing boards, which will absorb superfluous moisture and make a clean job around ornaments. Leave ornaments in original packages until ready to apply.

When mounting moulding ornaments we suggest you also wet ends and then crowd ornaments, this will prevent open joints. Ornaments should be glued at all points and press firmly with fingers. No nailing is necessary.

In case ornaments should become hard, take cardboard full of ornaments, place dry, empty cardboard over same and then place a water-soaked cardboard over and under the package. This will have a tendency to soften the ornaments in about twelve hours. Put in all the ornaments to be used one day, then prepare another package for the next days mounting, wrapping paper around package to retain moisture.

WOOD FIBRE CARVINGS

In addition to our line of ornaments in catalog #124 we also have the following catalogs.

Catalog #127 covering a line of capitals and brackets in the various art periods both for interior and exterior application. Price $3.00.

Catalog #129 covering a line of Wood Fibre Carvings which can be nailed or glued to the woodwork. Price $2.00.

Catalog #130 covering a line of plaster of paris ornaments for both interior and exterior use. Price $3.00.

Catalog #131 covering a line of wood mantels ornamented with our composition ornaments in the various art styles. Price $2.00.

All Designs Are Copyrighted
